Dear Hiring Manager,

I am excited to apply for the Laboratory Assistant / Specimen Processor - MOB lab (entry, non-licensed rung only) at Kaiser Permanente - SF Mission Bay Medical Offices in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Specimen processing, sample preparation, data entry, QC, lab safety.

Your posting emphasizes Entry specimen processing; CPT or MLT/CLS often required depending on req.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at 1600 Owens Street, San Francisco, CA 94158 (Mission Bay) is accessible via ZONE B - N Judah eastbound to Embarcadero -> T-Third southbound to Mission Bay (UCSF/Chase Center) -> walk to 1600 Owens. ~40-50 min.. My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Specimen processing, sample preparation, data entry, QC, lab safety can support Kaiser Permanente - SF Mission Bay Medical Offices. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.
