SF Office of the Chief Medical Examiner
1 Newhall Street, CA

Hiring Manager,

I am writing to ask to be considered for Forensic Laboratory Analyst (Class 2403) openings at SF Office of the Chief Medical Examiner. I hold a B.S. in Chemistry from UC Santa Cruz (2011), with bench experience in QC & compliance and research support from roles at Threshold Pharmaceuticals, MicroConstants and Quintara Biosciences.

The work you describe for this team is steady bench throughput and careful documentation. That is close to work I have actually done: QC checks and GLP documentation, including flagging anything out of specification, designing experiments with the team, interpreting the data and writing it up and running HPLC and column purification and logging what each run showed. I am comfortable being the person who keeps a bench tidy, a record complete and a schedule kept. The last decade of running property operations on contract sharpened exactly that: inventory, vendor scheduling, compliance paperwork and receipts that reconcile.

If a matching requisition opens, I would welcome a short conversation. I can be reached at (707) 596-8503 or Brian.j1274@gmail.com, and I am glad to send transcripts or references on request. Thank you for your time.

Sincerely,
Brian
