Hiring Manager
[Company Name]
[Company Address]

Dear Hiring Manager,

I am writing to apply for the Research Associate / Laboratory position at [Company Name] in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in HPLC, spectroscopy, chromatography, sample preparation, and GLP quality control from internships at Threshold Pharmaceuticals, MicroConstants, and Quintara Biosciences.

At Threshold Pharmaceuticals, I synthesized and purified organic compounds using NMR and HPLC, collaborating on experimental design and data interpretation. At MicroConstants, I performed sample extraction and spectroscopic analysis, and at Quintara Biosciences I followed GLP for sample prep, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011) on 14-Aminocamptothecins.

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses, making your San Francisco location easily accessible. My background in property management has strengthened my organizational, budget tracking, and compliance skills - transferable to lab inventory, documentation, and safety protocols.

I am eager to bring my analytical skills, attention to detail, and passion for science to your team. Thank you for considering my application. I would welcome the opportunity to discuss how my background aligns with your needs.

Sincerely,
Brian
