job-02 - UCSF - Department of Cellular & Molecular Pharmacology

Date: [Insert Date]

Hiring Manager
UCSF - Department of Cellular & Molecular Pharmacology
600 16th St, Mission Bay, San Francisco, CA 94158

Dear Hiring Manager,

I am excited to apply for the Staff Research Associate I - Chemical Biology of Cardiometabolic Disease (HPLC / assay development) at UCSF - Department of Cellular & Molecular Pharmacology in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in HPLC, assay development, spectroscopy, sample preparation, QC, data analysis.

Your posting emphasizes B.S. Chemistry; HPLC, cell-based assays, sample prep, data analysis.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at 600 16th St, Mission Bay, San Francisco, CA 94158 is accessible via ZONE B - N Judah eastbound to Embarcadero (24 min) -> T-Third southbound 2 stops to UCSF/Chase Center. Walk 5 min to 600 16th St. Total ~40 min.. I have verified your official careers portal at <https://careers.ucsf.edu> and will apply directly via <https://careers.ucsf.edu> - Search 'Chemical Biology' + 'Staff Research Associate' on careers.ucsf.edu.

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in HPLC, assay development, spectroscopy, sample preparation, QC, data analysis can support UCSF - Department of Cellular & Molecular Pharmacology. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 90% - Fit: HPLC, spectroscopy, chromatography and QC strengths are core to assay work.
Verified: UCSF - Department of Cellular & Molecular Pharmacology official site <https://careers.ucsf.edu> - physical address 600 16th St, Mission Bay, San Francisco, CA 94158 - verified
