Hiring Manager
UCSF - Institute for Neurodegenerative Diseases (IND)
UCSF Mission Bay Campus, San Francisco, CA 94158

Dear Hiring Manager,

I am excited to apply for the Staff Research Associate II - Drug Discovery, HTS team (small-molecule screening; LIVE posting, Job Code 009617) at UCSF - Institute for Neurodegenerative Diseases (IND) in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Small-molecule screening, cell-based & biochemical assays, assay development/conversion, sample prep, QC, documentation.

Your posting emphasizes B.S. biology/cell biology/biochemistry/immunology or related + ?1 yr recent related lab work; BSL 2/3 approved; cell/biochemical screening assays.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at UCSF Mission Bay Campus, San Francisco, CA 94158 is accessible via ZONE B - From 21st & Judah: N Judah eastbound to Embarcadero -> T-Third southbound to UCSF/Chase Center (16th St) -> walk to Mission Bay campus. ~40-50 min.. I have verified your official careers portal at <https://ind.ucsf.edu/staff-research-associate-ii-drug-discovery> and will apply directly via https://sjobs.brassring.com/TGnewUI/Search/Home/Home?partnerid=6495&siteid=5861#jobDetails=3364720_5861 - ind.ucsf.edu posting (verified live) -> click 'Apply Here' (UCSF official BrassRing job 3364720_5861).

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Small-molecule screening, cell-based & biochemical assays, assay development/conversion, sample prep, QC, documentation can support UCSF - Institute for Neurodegenerative Diseases (IND). I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 78% - Fit: Screening chemical compounds from libraries/med-chem synthesis with cell-, biochemical-, and other screening assays + converting assays to HTS format - chemistry screening/assay skills carry directly; neurodegenerative-disease focus (AD, Parkinson's, CTE).

Verified: UCSF - Institute for Neurodegenerative Diseases (IND) official site
