job-63 - UCSF - Quantitative Biosciences Institute (QBI), Krogan Lab

Date: [Insert Date]

Hiring Manager
UCSF - Quantitative Biosciences Institute (QBI), Krogan Lab
UCSF Mission Bay Campus, San Francisco, CA 94158

Dear Hiring Manager,

I am excited to apply for the Staff Research Associate II - Protein interaction & proteomics (cloning, iPSC culture, affinity workflows; LIVE posting) at UCSF - Quantitative Biosciences Institute (QBI), Krogan Lab in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Molecular cloning, plasmid preparation, PCR, Western blotting, cell maintenance, affinity/proximity workflows (LC-MS adjacent), QC, documentation.

Your posting emphasizes B.S. biology/biochem/molecular/cell biology/neuroscience/chem bio or related + ?1 yr recent lab experience; mammalian cell culture (iPSC a plus); cloning, plasmid prep, PCR, Western blot.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at UCSF Mission Bay Campus, San Francisco, CA 94158 is accessible via ZONE B - From 21st & Judah: N Judah eastbound to Embarcadero -> T-Third southbound to UCSF/Chase Center (16th St) -> walk to Mission Bay campus. ~40-50 min.. I have verified your official careers portal at <https://careers.ucsf.edu/careers/JobDetail/San-Francisco-CA-United-States/2949> and will apply directly via <https://careers.ucsf.edu/careers/JobDetail/San-Francisco-CA-United-States/2949> - Live JobDetail 2949 (SRA 2 NEX, QBI Krogan Lab) on careers.ucsf.edu -> apply via the listing.

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Molecular cloning, plasmid preparation, PCR, Western blotting, cell maintenance, affinity/proximity workflows (LC-MS adjacent), QC, documentation can support UCSF - Quantitative Biosciences Institute (QBI), Krogan Lab. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 76% - Fit: Affinity-tagged protein expression, affinity purification & proximity labeling for MS-based protein-interaction studies, molecular cloning, plasmid prep, PCR, Western blot, mammalian/iPSC cell culture - strong chemistry/biochem overlap.

Verified: UCSF - Quantitative Biosciences Institute (QBI), Krogan Lab official site
