job-65 - UCSF - Kamber Lab, Anatomy

Date: [Insert Date]

Hiring Manager
UCSF - Kamber Lab, Anatomy
UCSF Parnassus Heights (Anatomy, 580 Parnassus Ave area), San Francisco, CA 94143

Dear Hiring Manager,

I am excited to apply for the Junior/Assistant Specialist - Cancer immunology & CRISPR screening (JPF05697, open until filled) at UCSF - Kamber Lab, Anatomy in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Molecular cloning, cell culture, CRISPR methods, flow cytometry, NGS, lab operations, documentation.

Your posting emphasizes B.S. (or in process) or 4 yrs research experience (Junior rank); molecular cloning, mammalian cell culture, CRISPR/editing, flow/NGS experience a plus.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at UCSF Parnassus Heights (Anatomy, 580 Parnassus Ave area), San Francisco, CA 94143 is accessible via ZONE A - WALKABLE. From 21st & Judah: walk east on Judah to 30th Ave then north to Parnassus (~20-25 min), or Muni 45/26.. I have verified your official careers portal at <https://aprecruit.ucsf.edu/JPF05697> and will apply directly via <https://aprecruit.ucsf.edu/JPF05697> - Apply at aprecruit.ucsf.edu/JPF05697 (CV + 2 references; cover letter optional).

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Molecular cloning, cell culture, CRISPR methods, flow cytometry, NGS, lab operations, documentation can support UCSF - Kamber Lab, Anatomy. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 68% - Fit: Molecular cloning, tissue culture, CRISPR gene editing, automated live-cell imaging, flow cytometry, NGS + day-to-day lab operations - bench + operations mix in a macrophage/cancer-immunity lab.

Verified: UCSF - Kamber Lab, Anatomy official site <https://aprecruit.ucsf.edu/JPF05697> - physical address UCSF Parnassus Heights (Anatomy, 580 Parnassus Ave area), San Francisco, CA 94143 - verified
