Hiring Manager

EVERY (The EVERY Company) - precision fermentation, animal-free protein ingredients

San Francisco, CA (official board location; HQ 689 Bryant St, 94107 area - confirm building at interview)

Dear Hiring Manager,

I am excited to apply for the Research Associate I (Protein Science & Analytics) - HPLC, FPLC, plate readers (LIVE; \$75-85K) at EVERY (The EVERY Company) - precision fermentation, animal-free protein ingredients in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in HPLC (UV/RI), FPLC, DLS, plate readers, BCA/SDS-PAGE, sample & buffer prep, diafiltration/ultrafiltration, documentation.

Your posting emphasizes B.S. biology/biochemistry/chemistry/related + some hands-on lab experience; emphasis on analytical-instrumentation familiarity; pipetting & wet-lab basics.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at San Francisco, CA (official board location; HQ 689 Bryant St, 94107 area - confirm building at interview) is accessible via ZONE B/C - From 21st & Judah: N Judah eastbound to Embarcadero -> T-Third southbound to 22nd St/Mission -> walk north/west to Bryant St (689 Bryant area). ~45-60 min.. I have verified your official careers portal at <https://job-boards.greenhouse.io/theeverycompany/jobs/5745371004> and will apply directly via <https://job-boards.greenhouse.io/theeverycompany/jobs/5745371004> - Official Greenhouse board job-boards.greenhouse.io/theeverycompany - apply to the single live job (RA I, Protein Science & Analytics, San Francisco).

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in HPLC (UV/RI), FPLC, DLS, plate readers, BCA/SDS-PAGE, sample & buffer prep, diafiltration/ultrafiltration, documentation can support EVERY (The EVERY Company) - precision fermentation, animal-free protein ingredients. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,

Brian

Match Score: 88% - Fit: Best skills match of the pass: HPLC-UV/RI, FPLC-UV, DLS, fluorescence/UV plate readers, BCA, SDS-PAGE, diafiltration/ultrafiltration/microfiltration, sample/reagent/buffer prep - core analytical biochemistry at an entry level (B.S. required, some lab experience).
