Hiring Manager
Anthropic (public benefit corp) - AI for science, Life Sciences team
548 Market Street (SF office), San Francisco, CA 94104

Dear Hiring Manager,

I am excited to apply for the Research Associate, Biology - Entry-level bench scientist (molecular biology + biochemistry; LIVE) at Anthropic (public benefit corp) - AI for science, Life Sciences team in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in PCR, gel electrophoresis, molecular cloning, plasmid preparation, aseptic technique, cell culture, nucleic acid extraction & quantification, protocol documentation.

Your posting emphasizes Hands-on research experience in molecular biology/biochemistry/related (B.S./M.S. preferred); PCR, gels, cloning, plasmid prep; cell culture; motivation & documentation discipline.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at 548 Market Street (SF office), San Francisco, CA 94104 is accessible via ZONE C - From 21st & Judah: N Judah eastbound to Powell & Market -> walk south on Market ~5 min to 548 Market St. ~35-45 min.. I have verified your official careers portal at <https://job-boards.greenhouse.io/anthropic/jobs/5285248008> and will apply directly via <https://job-boards.greenhouse.io/anthropic/jobs/5285248008> - Apply on official Greenhouse board (job 5285248008) - resume OR LinkedIn profile required; careers hub anthropic.com/careers.

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in PCR, gel electrophoresis, molecular cloning, plasmid preparation, aseptic technique, cell culture, nucleic acid extraction & quantification, protocol documentation can support Anthropic (public benefit corp) - AI for science, Life Sciences team. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 76% - Fit: Fully hands-on bench (explicitly NO AI/ML model development): PCR, gel electrophoresis, molecular cloning, plasmid prep, aseptic technique, bacterial/mammalian cell culture, nucleic acid extraction/purification/quantification; protein expression & purification + enzyme kinetics preferred - strong overlap. \$65-85K.

Verified: Anthropic (public benefit corp) - AI for science, Life Sciences team official site <https://job-boards.greenhouse.io/anthropic/jobs/5285248008> - physical address 548 Market Street (SF office), San Francisco, CA 94104 - verified

Official Apply: <https://job-boards.greenhouse.io/anthropic/jobs/5285248008> - Apply on official Greenhouse board (job 5285248008) - resume OR LinkedIn profile required; careers hub anthropic.com/careers

Transit: ZONE C - From 21st & Judah: N Judah eastbound to Powell & Market -> walk south on Market ~5 min to 548 Market St. ~35-45 min.
