Hiring Manager
Parallel Bio - human-first drug discovery + patient biobank
San Francisco, CA 94110 (Mission - '100% onsite... San Francisco lab' per official posting; street address confirmed at interview)

Dear Hiring Manager,

I am excited to apply for the Research Associate, Biobanking - human tissue sample processing, LIMS, QC (LIVE; \$70-85K) at Parallel Bio - human-first drug discovery + patient biobank in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Sample processing & chain-of-custody, LIMS/ELN, aseptic technique, cell culture, cryopreservation, QC (viability/counts), cold chain, SOP documentation.

Your posting emphasizes B.S./M.S. biology/immunology/cell biology/biotechnology or related + ?1 yr human primary cell/tissue processing; aseptic technique; mammalian cell/tissue culture; LIMS/ELN.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at San Francisco, CA 94110 (Mission - '100% onsite... San Francisco lab' per official posting; street address confirmed at interview) is accessible via ZONE B/C - Mission (94110): From 21st & Judah: N Judah eastbound to Church & Duboce -> J Church southbound toward 16th/24th -> short walk (exact street confirmed at interview). ~45-60 min.. I have verified your official careers portal at <https://jobs.ashbyhq.com/parallel-bio/3ceab0ea-308b-4518-8939-3c011c624c5b> and will apply directly via <https://jobs.ashbyhq.com/parallel-bio/3ceab0ea-308b-4518-8939-3c011c624c5b> - Official Ashby board jobs.ashbyhq.com/parallel-bio - apply to 'Research Associate, Biobanking' (posted March 13, 2026).

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Sample processing & chain-of-custody, LIMS/ELN, aseptic technique, cell culture, cryopreservation, QC (viability/counts), cold chain, SOP documentation can support Parallel Bio - human-first drug discovery + patient biobank. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 76% - Fit: Receive/log/process irreplaceable human samples with real-time chain-of-custody in LIMS/ELN, primary immune-cell isolation, cryopreservation, QC (cell counts, viability, simple flow), cold-chain logistics, SOP authoring - strong sample-handling + QC + documentation match.
