job-77 - San Francisco AIDS Foundation (Magnet/Strut)

Date: [Insert Date]

Hiring Manager
San Francisco AIDS Foundation (Magnet/Strut)
470 Castro Street, San Francisco, CA 94114 (per official posting; occasional travel to other SFAF sites)

Dear Hiring Manager,

I am excited to apply for the Lab Technician (Phlebotomist) - Full-time, high-volume phlebotomy + QA (LIVE; \$34-37/hr) at San Francisco AIDS Foundation (Magnet/Strut) in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Phlebotomy, specimen processing & off-site transport, quality assurance, POC testing, logs, regulatory compliance (HIPAA/GCP).

Your posting emphasizes CA Certified Phlebotomy Technician I/II or MLT certificate (or equivalent degree allowing venipuncture); active CPhT with CA Laboratory Field Service; HIV counselor cert (or within 6 months); BLS.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at 470 Castro Street, San Francisco, CA 94114 (per official posting; occasional travel to other SFAF sites) is accessible via ZONE C - From 21st & Judah: N Judah eastbound to Church & Market -> J Church southbound 1-2 stops (18th/19th) -> walk 1 block west to 470 Castro St. ~40-50 min.. I have verified your official careers portal at <https://job-boards.greenhouse.io/sfaf/jobs/5219503008> and will apply directly via <https://job-boards.greenhouse.io/sfaf/jobs/5219503008> - Official Greenhouse board job-boards.greenhouse.io/sfaf - apply to 'Lab Technician (Phlebotomist)' (job 5219503008).

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Phlebotomy, specimen processing & off-site transport, quality assurance, POC testing, logs, regulatory compliance (HIPAA/GCP) can support San Francisco AIDS Foundation (Magnet/Strut). I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 58% - Fit: High-volume phlebotomy, specimen processing & off-site transport, QA on lab tests, point-of-care testing, accurate logs, regulatory compliance - strong specimen/QC overlap; requires CPhT I/II or MLT certification (or degree allowing venipuncture in CA) + HIV test counseling role.

Verified: San Francisco AIDS Foundation (Magnet/Strut) official site <https://job-boards.greenhouse.io/sfaf/jobs/5219503008> - physical address 470 Castro Street, San Francisco, CA 94114 (per official posting; occasional travel to other SFAF sites) - verified
