University of California, San Francisco
San Francisco, CA

Search Committee,

I am writing to apply for the Junior Specialist position at University of California, San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011), with bench experience in QC & compliance and research support from roles at Threshold Pharmaceuticals, MicroConstants and Quintara Biosciences, and a peer-reviewed publication in the ACS Journal of Medicinal Chemistry (February 2011).

The heart of your posting is steady bench throughput and careful documentation. That is close to work I have actually done: QC checks and GLP documentation, including flagging anything out of specification, designing experiments with the team, interpreting the data and writing it up and electronic records and clean data entry, with summaries the team could actually use. I am comfortable being the person who keeps a bench tidy, a record complete and a schedule kept. The last decade of running property operations on contract sharpened exactly that: inventory, vendor scheduling, compliance paperwork and receipts that reconcile.

I would welcome a short conversation and can interview at your convenience. I am available to start on short notice and can be reached at (707) 596-8503 or Brian.j1274@gmail.com. Thank you for your time and consideration.

Sincerely,
Brian
