job-42 - UCSF - Francis I. Proctor Foundation for Research in Ophthalmology

Date: [Insert Date]

Hiring Manager
UCSF - Francis I. Proctor Foundation for Research in Ophthalmology
490 Illinois Street, Floor 2, San Francisco, CA 94143 (Mission Bay / Potrero edge)

Dear Hiring Manager,

I am excited to apply for the Staff Research Associate I/II - Ocular infectious-disease / microbiology labs (assays, sample prep) at UCSF - Francis I. Proctor Foundation for Research in Ophthalmology in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Sample preparation, sterile technique, assays, QC, data recording, lab safety.

Your posting emphasizes B.S. life science; sterile technique, sample prep, assays; ophthalmology/microbiology interest.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at 490 Illinois Street, Floor 2, San Francisco, CA 94143 (Mission Bay / Potrero edge) is accessible via ZONE B - N Judah eastbound to Embarcadero -> T-Third southbound to UCSF/Chase Center (16th St) -> walk east to 490 Illinois St. ~40-50 min.. I have verified your official careers portal at <https://proctor.ucsf.edu/> and will apply directly via <https://careers.ucsf.edu> - Search 'Proctor' + 'Staff Research Associate' on careers.ucsf.edu.

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Sample preparation, sterile technique, assays, QC, data recording, lab safety can support UCSF - Francis I. Proctor Foundation for Research in Ophthalmology. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 72% - Fit: Analytical and sample-prep discipline transfers to ocular-microbiology assay support; heavier on microbiology than chemistry.

Verified: UCSF - Francis I. Proctor Foundation for Research in Ophthalmology official site <https://proctor.ucsf.edu/> - physical address 490 Illinois Street, Floor 2, San Francisco, CA 94143 (Mission Bay / Potrero edge) - verified
