job-49 - Aquarium of the Bay (Bay Ecotarium)

Date: [Insert Date]

Hiring Manager
Aquarium of the Bay (Bay Ecotarium)
PIER 39, Embarcadero & Beach Street, San Francisco, CA 94133

Dear Hiring Manager,

I am excited to apply for the Biologist I - Entry, water-quality laboratory + environmental parameters (ANIMAL-CARE role) at Aquarium of the Bay (Bay Ecotarium) in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Water-quality testing, analytical methods, accurate logs, QC, safety compliance.

Your posting emphasizes Entry; water-quality testing, animal care, logs; SCUBA for exhibit diving.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at PIER 39, Embarcadero & Beach Street, San Francisco, CA 94133 is accessible via ZONE C - N Judah eastbound to Embarcadero -> F-line streetcar east to Pier 39 (or ~20-min walk). ~40-55 min.. I have verified your official careers portal at <https://www.aquariumofthebay.org/careers/> and will apply directly via <https://www.aquariumofthebay.org/careers/> - Biologist I posting live on the official careers page (checked Sept 9, 2026) - re-verify, then apply direct.

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Water-quality testing, analytical methods, accurate logs, QC, safety compliance can support Aquarium of the Bay (Bay Ecotarium). I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 55% - Fit: Water-quality testing uses analytical discipline; heavy animal-care and SCUBA component - not a pure chemistry post.

Verified: Aquarium of the Bay (Bay Ecotarium) official site <https://www.aquariumofthebay.org/careers/> - physical address PIER 39, Embarcadero & Beach Street, San Francisco, CA 94133 - verified
