job-54 - U.S. Customs and Border Protection - San Francisco Laboratory (federal)

Date: [Insert Date]

Hiring Manager

U.S. Customs and Border Protection - San Francisco Laboratory (federal)

630 Sansome Street, Room 1450, San Francisco, CA 94111 (Financial District)

Dear Hiring Manager,

I am excited to apply for the Chemist (1320 series) - Analytical chemistry, trade & commodity testing (via USAJOBS) at U.S. Customs and Border Protection - San Francisco Laboratory (federal) in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in HPLC, spectroscopy, chromatography, sample preparation, QC, GLP, analytical methods.

Your posting emphasizes B.S. Chemistry (1320 series); analytical methods; U.S. citizenship + background investigation.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at 630 Sansome Street, Room 1450, San Francisco, CA 94111 (Financial District) is accessible via ZONE C - N Judah eastbound to Embarcadero or Montgomery -> walk north to 630 Sansome St. ~30-40 min.. I have verified your official careers portal at <https://www.cbp.gov/about/labs-scientific-svcs/org-operations> and will apply directly via <https://www.usajobs.gov> - Search 'Chemist' + 'Customs and Border Protection' + San Francisco on USAJOBS; set an alert.

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in HPLC, spectroscopy, chromatography, sample preparation, QC, GLP, analytical methods can support U.S. Customs and Border Protection - San Francisco Laboratory (federal). I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,

Brian

Match Score: 80% - Fit: A working analytical-chemistry federal lab; HPLC/spectroscopy/chromatography profile is the bullseye for Chemist reqs.

Verified: U.S. Customs and Border Protection - San Francisco Laboratory (federal) official site <https://www.cbp.gov/about/labs-scientific-svcs/org-operations> - physical address 630 Sansome Street, Room 1450, San Francisco, CA 94111 (Financial District) - verified
