Hiring Manager
Bridge HIV (SFDPH + UCSF) - HIV Prevention Research Unit
25 Van Ness Avenue, Suite 100, San Francisco, CA 94102 (Civic Center)

Dear Hiring Manager,

I am excited to apply for the Research Associate / Specimen Processing - Chain-of-custody, LIMS, human-sample handling (via Heluna) at Bridge HIV (SFDPH + UCSF) - HIV Prevention Research Unit in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Specimen processing, chain-of-custody, LIMS/ELN records, QC, lab safety.

Your posting emphasizes B.A./B.S.; specimen processing, chain-of-custody, LIMS/ELN; HIV-community research setting.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at 25 Van Ness Avenue, Suite 100, San Francisco, CA 94102 (Civic Center) is accessible via ZONE C - N Judah eastbound to Van Ness or Civic Center -> walk to 25 Van Ness Ave. ~30-40 min.. I have verified your official careers portal at <https://www.bridgehiv.org/> and will apply directly via <https://www.helunahealth.org/> - Careers on helunahealth.org -> search 'Bridge HIV' Research Associate (Heluna is employer of record).

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Specimen processing, chain-of-custody, LIMS/ELN records, QC, lab safety can support Bridge HIV (SFDPH + UCSF) - HIV Prevention Research Unit. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 64% - Fit: Biobanking/specimen-processing duties use sample-handling + records discipline; grant-funded research setting.

Verified: Bridge HIV (SFDPH + UCSF) - HIV Prevention Research Unit official site <https://www.bridgehiv.org/> - physical address 25 Van Ness Avenue, Suite 100, San Francisco, CA 94102 (Civic Center) - verified
