job-21 - San Francisco State University - Dept. of Chemistry & Biochemistry

Date: [Insert Date]

Hiring Manager
San Francisco State University - Dept. of Chemistry & Biochemistry
1600 Holloway Avenue (SEIC-211), San Francisco, CA 94132

Dear Hiring Manager,

I am excited to apply for the Instructional Support Technician / Research Support (chemistry teaching & research labs) at San Francisco State University - Dept. of Chemistry & Biochemistry in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Solution preparation, HPLC, spectroscopy, sample preparation, instrument upkeep, lab safety, QC.

Your posting emphasizes B.S. Chemistry ideal; lab prep, instrumentation, solution prep, safety compliance, student support.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at 1600 Holloway Avenue (SEIC-211), San Francisco, CA 94132 is accessible via ZONE A - N Judah eastbound to 19th Ave station -> M Ocean View southbound 1 stop to SF State, or 28/29 bus south on 19th Ave to Holloway. ~25-35 min.. I have verified your official careers portal at <https://chemistry.sfsu.edu/> and will apply directly via <https://careers.pageuppeople.com/873/sf/en-us/search-results> - Search 'Instructional Support' or 'Research' + San Francisco on the SFSU PageUp board.

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Solution preparation, HPLC, spectroscopy, sample preparation, instrument upkeep, lab safety, QC can support San Francisco State University - Dept. of Chemistry & Biochemistry. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 82% - Fit: B.S. Chemistry + HPLC/spectroscopy/sample-prep background fits chemistry teaching & research lab prep and support.
