City College of San Francisco
San Francisco, CA

Hiring Manager,

I am writing to apply for the Laboratory Technician / Technical Instructional Aide (science labs, Ocean Campus) position at City College of San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011), with bench experience in QC & compliance and sample handling from roles at Threshold Pharmaceuticals, MicroConstants and Quintara Biosciences, and a peer-reviewed publication in the ACS Journal of Medicinal Chemistry (February 2011).

The heart of your posting is science lab experience; prep, storeroom/inventory, equipment setup, safety. That is close to work I have actually done: QC checks and GLP documentation, including flagging anything out of specification, extracting, aliquoting, labeling and tracking samples so the chain of records stays intact and keeping instruments calibrated and sorting out the simple faults before they cost a run. I am comfortable being the person who keeps a bench tidy, a record complete and a schedule kept. The last decade of running property operations on contract sharpened exactly that: inventory, vendor scheduling, compliance paperwork and receipts that reconcile.

I would welcome a short conversation and can interview at your convenience. I am available to start on short notice and can be reached at (707) 596-8503 or Brian.j1274@gmail.com. Thank you for your time and consideration.

Sincerely,
Brian
