Chinese Hospital
845 Jackson Street, 1/F, CA

Hiring Manager,

I am writing to apply for the Clinical Laboratory Technician (Non-Testing Personnel) position at Chinese Hospital. I hold a B.S. in Chemistry from UC Santa Cruz (2011), with bench experience in sample handling and wet chemistry from roles at Threshold Pharmaceuticals, MicroConstants and Quintara Biosciences, and a peer-reviewed publication in the ACS Journal of Medicinal Chemistry (February 2011).

The heart of your posting is REQUIRED: CA Phlebotomy Technician cert (CPT-1 or CPT-2); nights/weekends/holidays.... That is close to work I have actually done: extracting, aliquoting, labeling and tracking samples so the chain of records stays intact, making up buffers and reagents, titration and pH work at the bench. I am comfortable being the person who keeps a bench tidy, a record complete and a schedule kept. The last decade of running property operations on contract sharpened exactly that: inventory, vendor scheduling, compliance paperwork and receipts that reconcile.

I would welcome a short conversation and can interview at your convenience. I am available to start on short notice and can be reached at (707) 596-8503 or Brian.j1274@gmail.com. Thank you for your time and consideration.

Sincerely,
Brian
