Sutter Health
475 Brannan Street, Suite 130, San Francisco, CA 94107

Hiring Manager,

I am writing to ask to be considered for Research Associate / Study Coordinator, lab track openings at Sutter Health. I hold a B.S. in Chemistry from UC Santa Cruz (2011), with bench experience in records & data and sample handling from roles at Threshold Pharmaceuticals, MicroConstants and Quintara Biosciences.

The work you describe for this team is steady bench throughput and careful documentation. That is close to work I have actually done: electronic records and clean data entry, with summaries the team could actually use, extracting, aliquoting, labeling and tracking samples so the chain of records stays intact and QC checks and GLP documentation, including flagging anything out of specification. I am comfortable being the person who keeps a bench tidy, a record complete and a schedule kept. The last decade of running property operations on contract sharpened exactly that: inventory, vendor scheduling, compliance paperwork and receipts that reconcile.

If a matching requisition opens, I would welcome a short conversation. I can be reached at (707) 596-8503 or Brian.j1274@gmail.com, and I am glad to send transcripts or references on request. Thank you for your time.

Sincerely,
Brian
