Parallel Bio
San Francisco, CA

Hiring Manager,

I am writing to apply for the Research Associate, Biobanking position at Parallel Bio. I hold a B.S. in Chemistry from UC Santa Cruz (2011), with bench experience in records & data and QC & compliance from roles at Threshold Pharmaceuticals, MicroConstants and Quintara Biosciences, and a peer-reviewed publication in the ACS Journal of Medicinal Chemistry (February 2011).

The heart of your posting is steady bench throughput and careful documentation. That is close to work I have actually done: electronic records and clean data entry, with summaries the team could actually use, QC checks and GLP documentation, including flagging anything out of specification and designing experiments with the team, interpreting the data and writing it up. I am comfortable being the person who keeps a bench tidy, a record complete and a schedule kept. The last decade of running property operations on contract sharpened exactly that: inventory, vendor scheduling, compliance paperwork and receipts that reconcile.

I would welcome a short conversation and can interview at your convenience. I am available to start on short notice and can be reached at (707) 596-8503 or Brian.j1274@gmail.com. Thank you for your time and consideration.

Sincerely,
Brian
