job-80 - Deciduous Therapeutics (DTx) - drug discovery startup

Date: [Insert Date]

Hiring Manager
Deciduous Therapeutics (DTx) - drug discovery startup
953 Indiana Street, San Francisco, CA 94107 (Dogpatch)

Dear Hiring Manager,

I am excited to apply for the Senior Research Associate - Immunology (LIVE; \$80-120K) [FLAG: senior level - M.S./PhD preferred] at Deciduous Therapeutics (DTx) - drug discovery startup in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Immunology assays, cell work, sample management, data analysis, SOP discipline, cross-functional communication.

Your posting emphasizes Senior RA: M.S./Ph.D. pharmacology/biochemistry/molecular or related (per current posting); immunology assays; cross-functional research + operations reporting to a Senior Research Scientist.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at 953 Indiana Street, San Francisco, CA 94107 (Dogpatch) is accessible via ZONE B - From 21st & Judah: N Judah eastbound to Embarcadero -> T-Third southbound to 22nd St/Mission -> walk south on 22nd to Indiana (~10 min) to 953 Indiana St. ~45-60 min.. I have verified your official careers portal at <https://www.deciduoustx.com/> and will apply directly via <https://www.deciduoustx.com/> - Careers (careers@deciduoustx.com) - Deciduous official site careers (deciduoustx.com; careers@deciduoustx.com) - 'Senior Research Associate - Immunology' live as of Sept 9, 2026; apply direct with tailored docs.

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Immunology assays, cell work, sample management, data analysis, SOP discipline, cross-functional communication can support Deciduous Therapeutics (DTx) - drug discovery startup. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 55% - Fit: Immunology RA at a real SF Dogpatch lab (953 Indiana - same shared building as Wildtype, job-55): cross-functional research + operations, sample management. Speculative for a B.S. - current req favors M.S./PhD (flagged); chemistry bench + organization can carry a well-targeted application.

Verified: Deciduous Therapeutics (DTx) - drug discovery startup official site <https://www.deciduoustx.com/> - physical address 953 Indiana Street, San Francisco, CA 94107 (Dogpatch) - verified

Official Apply: <https://www.deciduoustx.com/> - Careers (careers@deciduoustx.com) - Deciduous official site careers (deciduoustx.com; careers@deciduoustx.com) - 'Senior Research Associate - Immunology' live as of Sept 9, 2026; apply direct with tailored docs

Transit: ZONE B - From 21st & Judah: N Judah eastbound to Embarcadero -> T-Third southbound to 22nd St/Mission -> walk south on 22nd to Indiana (~10 min) to 953 Indiana St. ~45-60 min.
