University of California, San Francisco
San Francisco, CA

Search Committee,

I am writing to apply for the Junior Specialist position at University of California, San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011), with bench experience in chromatography & purification and spectroscopy & characterization from roles at Threshold Pharmaceuticals, MicroConstants and Quintara Biosciences, and a peer-reviewed publication in the ACS Journal of Medicinal Chemistry (February 2011).

The heart of your posting is steady bench throughput and documentation that holds up. That is close to work I have actually done: running HPLC and column purification and logging what each run showed, confirming identity and purity by NMR and UV-Vis and writing the results up and designing experiments with the team, interpreting the data and writing it up. I am comfortable being the person who keeps a bench tidy, a record complete and a schedule kept. The last decade of running property operations on contract sharpened exactly that: inventory, vendor scheduling, compliance paperwork and receipts that reconcile.

I would welcome a short conversation and can interview at your convenience. I am available to start on short notice and can be reached at (707) 596-8503 or Brian.j1274@gmail.com. Thank you for your time and consideration.

Sincerely,
Brian
