Anthropic
548 Market Street, CA

Hiring Manager,

I am writing to ask to be considered for Research Associate, Biology openings at Anthropic. I hold a B.S. in Chemistry from UC Santa Cruz (2011), with bench experience in research support and chromatography & purification from roles at Threshold Pharmaceuticals, MicroConstants and Quintara Biosciences.

The work you describe for this team is hands-on research experience in molecular biology/biochemistry/related (B. That is close to work I have actually done: designing experiments with the team, interpreting the data and writing it up, running HPLC and column purification and logging what each run showed and extracting, aliquoting, labeling and tracking samples so the chain of records stays intact. I am comfortable being the person who keeps a bench tidy, a record complete and a schedule kept. The last decade of running property operations on contract sharpened exactly that: inventory, vendor scheduling, compliance paperwork and receipts that reconcile.

If a matching requisition opens, I would welcome a short conversation. I can be reached at (707) 596-8503 or Brian.j1274@gmail.com, and I am glad to send transcripts or references on request. Thank you for your time.

Sincerely,
Brian
