SUMMARY

B.S. Chemistry (UC Santa Cruz, 2011) with hands-on bench experience in analytical and preparative chemistry: HPLC and chromatographic purification, NMR and UV-Vis characterization, sample preparation and extraction, and QC documentation under GLP. Seeking a Laboratory Assistant / Specimen Processor position in San Francisco, ideally in a lab where sample handling, chromatography & purification and spectroscopy & characterization are part of the weekly routine.

CORE LABORATORY SKILLS

- Sample handling: receipt, preparation, extraction, aliquoting, labeling and tracking
- Chromatography & purification: HPLC runs, column and flash purification, fraction collection
- Spectroscopy & characterization: NMR, UV-Vis; reviewing and reporting instrument output
- QC & compliance: GLP documentation, control records, out-of-spec flags, safety protocols
- Wet chemistry: titration, buffer and reagent preparation, solution making and pH adjustment
- Instrument care: routine upkeep, calibration checks and first-line troubleshooting
- Education: B.S. Chemistry, UC Santa Cruz (2011); ACS J. Med. Chem. publication (Feb 2011)
- Availability: San Francisco-based, on-site laboratory work, short notice

LABORATORY EXPERIENCE

Lab Assistant - Quintara Biosciences, San Francisco Bay Area - Jan 2012 to May 2012

- Ran laboratory procedures under Good Laboratory Practice, including sample preparation and accurate data recording.
- Carried out quality-control checks and documented results for review.
- Maintained laboratory equipment and kept safety-protocol compliance current.

Lab Intern - MicroConstants, San Diego, CA - Aug 2011 to Dec 2011

- Prepared samples by extraction and ran chromatography on the QC bench.
- Performed spectroscopic analysis, then recorded and interpreted the output.
- Helped move paper lab records into electronic systems and supported QC efforts.

Summer Medicinal Chemistry Intern - Threshold Pharmaceuticals, San Francisco Bay Area - Jun 2011 to Aug 2011

- Synthesized organic compounds for a drug-development program.
- Purified compounds and followed purity by HPLC and NMR.
- Contributed to experimental design, reaction troubleshooting and data interpretation.

ADDITIONAL EXPERIENCE

Property Manager (contract) - San Francisco, CA - May 2012 to present

- Run the paperwork side of residential operations: compliance records, contracts, receipts and reporting.
- Track budgets and expenses, and keep vendor, maintenance and supply schedules current.
- Handle tenant and contractor communication in writing and by phone, with a paper trail for every decision.

EDUCATION

B.S. in Chemistry - University of California, Santa Cruz - 2007 to 2011

- Undergraduate research assistant, Yat Li's laboratory: grew gallium nitride films by chemical vapor deposition for dye-sensitized solar cells; prepared samples, ran characterization and analyzed the data.

PUBLICATION

- "14-Aminocamptothecins: Their Synthesis, Preclinical Activity, and Potential Use for Cancer Treatment", ACS Journal of Medicinal Chemistry, February 2011.
