job-82 - General Proximity - Induced Proximity Medicines

Date: [Insert Date]

Hiring Manager
General Proximity - Induced Proximity Medicines
135 Mississippi Street (MBC BioLabs), San Francisco, CA 94107

Dear Hiring Manager,

I am excited to apply for the Scientist - Mechanistic Biology (Target validation, co-IP, RNA-seq, proteomics, flow, BRET; LIVE 6009199004) at General Proximity - Induced Proximity Medicines in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Mammalian cell culture, co-IP, RNA-seq awareness, proteomics awareness, flow cytometry, BRET, assay development, data analysis.

Your posting emphasizes B.S./M.S./PhD + 5-7 yrs if B.S.; mammalian cell culture, co-IP, RNA-seq, proteomics, flow cytometry, BRET, assay development.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at 135 Mississippi Street (MBC BioLabs), San Francisco, CA 94107 is accessible via ZONE B - N Judah eastbound -> T-Third southbound to 22nd St -> walk east to 135 Mississippi St. ~45-60 min.. I have verified your official careers portal at <https://generalproximity.com> and will apply directly via <https://job-boards.greenhouse.io/generalproximity/jobs/6009199004> - Apply on official Greenhouse board - 6009199004.

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Mammalian cell culture, co-IP, RNA-seq awareness, proteomics awareness, flow cytometry, BRET, assay development, data analysis can support General Proximity - Induced Proximity Medicines. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 68% - Fit: Good-minus - more biology than chemistry, but assay, sample-prep, and data-analysis skills transfer; OmniTAC platform discovery role.

Verified: General Proximity - Induced Proximity Medicines official site <https://generalproximity.com> - physical address 135 Mississippi Street (MBC BioLabs), San Francisco, CA 94107 - verified
