Dear Hiring Manager,

I am excited to apply for the Research Associate - Molecular and Cell Biology (CELLxSTATE / OpenCell) at Chan Zuckerberg Biohub San Francisco in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Sample preparation, data analysis, GLP, lab safety, microscopy awareness.

Your posting emphasizes B.Sc. Cell/Molecular Biology; 1 yr tissue culture, microscopy, molecular biology.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at 499 Illinois Street & 1700 Owens St area, Mission Bay, San Francisco, CA 94158 is accessible via ZONE B - N Judah east to Embarcadero -> T-Third south to UCSF/Chase Center -> walk 5-10 min to Illinois/Owens. ~40-50 min.. I have verified your official careers portal at <https://www.czbiohub.org/careers> and will apply directly via <https://biohub.org/careers/> - On biohub.org/careers -> Greenhouse board: search 'Research Associate' + San Francisco.

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Sample preparation, data analysis, GLP, lab safety, microscopy awareness can support Chan Zuckerberg Biohub San Francisco. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 74% - Fit: More cell biology than chemistry, but sample prep, data analysis, GLP discipline transfer.
