job-15 - Vir Biotechnology

Date: [Insert Date]

Hiring Manager
Vir Biotechnology
1800 Owens Street, Suite 900, Mission Bay, San Francisco, CA 94158

Dear Hiring Manager,

I am excited to apply for the Research Associate II, In Vivo - Infectious Disease / Oncology (lab support, sample prep) at Vir Biotechnology in San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011) with hands-on experience in Sample preparation, data analysis, lab discipline, GLP, organizational skills.

Your posting emphasizes B.S. biological sciences + 2 yrs direct in vivo research; mouse handling, tumor measurement, dosing.. My background directly aligns: at Threshold Pharmaceuticals I synthesized and purified organic compounds using NMR and HPLC; at MicroConstants I performed sample extraction, chromatography, and spectroscopic analysis; at Quintara Biosciences I followed GLP for sample preparation, data recording, QC, and equipment maintenance. I also have a publication in ACS Journal of Medicinal Chemistry (Feb 2011).

I live at 21st Ave & Judah St in the Inner Sunset and commute via N Judah Muni and SFMTA buses. Your location at 1800 Owens Street, Suite 900, Mission Bay, San Francisco, CA 94158 is accessible via ZONE B - N Judah east to Embarcadero -> T-Third south to UCSF/Chase Center -> walk 3 min to 1800 Owens. ~40-50 min.. I have verified your official careers portal at <https://www.vir.bio/careers/jobs/> and will apply directly via <https://job-boards.greenhouse.io/virbiotechnologyinc> - Search 'Research Associate' on Greenhouse board.

My property management experience has strengthened my organizational, budget tracking, and compliance skills - valuable for lab inventory, documentation, and safety protocols. I am detail-oriented, collaborative, and eager to contribute to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in Sample preparation, data analysis, lab discipline, GLP, organizational skills can support Vir Biotechnology. I am available for an interview at your convenience and can be reached at (707) 596-8503 or Brian.j1274@gmail.com.

Sincerely,
Brian

Match Score: 58% - Fit: Requires in vivo mouse work you don't list; however sample prep, data analysis, lab discipline still transfer.
Verified: Vir Biotechnology official site <https://www.vir.bio/careers/jobs/> - physical address 1800 Owens Street, Suite 900, Mission Bay, San Francisco, CA 94158 - verified
