Anresco Laboratories
San Francisco, CA

Hiring Manager,

I am writing to apply for the Laboratory Technician position at Anresco Laboratories. I hold a B.S. in Chemistry from UC Santa Cruz (2011), with bench experience in sample handling and chromatography & purification from roles at Threshold Pharmaceuticals, MicroConstants and Quintara Biosciences, and a peer-reviewed publication in the ACS Journal of Medicinal Chemistry (February 2011).

The heart of your posting is steady bench throughput and careful documentation. That is close to work I have actually done: extracting, aliquoting, labeling and tracking samples so the chain of records stays intact, running HPLC and column purification and logging what each run showed and QC checks and GLP documentation, including flagging anything out of specification. I am comfortable being the person who keeps a bench tidy, a record complete and a schedule kept. The last decade of running property operations on contract sharpened exactly that: inventory, vendor scheduling, compliance paperwork and receipts that reconcile.

I would welcome a short conversation and can interview at your convenience. I am available to start on short notice and can be reached at (707) 596-8503 or Brian.j1274@gmail.com. Thank you for your time and consideration.

Sincerely,
Brian
