San Francisco AIDS Foundation
470 Castro Street, San Francisco, CA 94114

Hiring Manager,

I am writing to apply for the Lab Technician (Phlebotomist) position at San Francisco AIDS Foundation. I hold a B.S. in Chemistry from UC Santa Cruz (2011), with bench experience in QC & compliance and sample handling from roles at Threshold Pharmaceuticals, MicroConstants and Quintara Biosciences, and a peer-reviewed publication in the ACS Journal of Medicinal Chemistry (February 2011).

The heart of your posting is steady bench throughput and careful documentation. That is close to work I have actually done: QC checks and GLP documentation, including flagging anything out of specification, extracting, aliquoting, labeling and tracking samples so the chain of records stays intact and making up buffers and reagents, titration and pH work at the bench. I am comfortable being the person who keeps a bench tidy, a record complete and a schedule kept. The last decade of running property operations on contract sharpened exactly that: inventory, vendor scheduling, compliance paperwork and receipts that reconcile.

I would welcome a short conversation and can interview at your convenience. I am available to start on short notice and can be reached at (707) 596-8503 or Brian.j1274@gmail.com. Thank you for your time and consideration.

Sincerely,
Brian
