Chan Zuckerberg Biohub San Francisco
San Francisco, CA

Hiring Manager,

I am writing to ask to be considered for Research Associate openings at Chan Zuckerberg Biohub San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011), with bench experience in sample handling and chromatography & purification from roles at Threshold Pharmaceuticals, MicroConstants and Quintara Biosciences.

The work you describe for this team is steady bench throughput and careful documentation. That is close to work I have actually done: extracting, aliquoting, labeling and tracking samples so the chain of records stays intact, running HPLC and column purification and logging what each run showed and designing experiments with the team, interpreting the data and writing it up. I am comfortable being the person who keeps a bench tidy, a record complete and a schedule kept. The last decade of running property operations on contract sharpened exactly that: inventory, vendor scheduling, compliance paperwork and receipts that reconcile.

If a matching requisition opens, I would welcome a short conversation. I can be reached at (707) 596-8503 or Brian.j1274@gmail.com, and I am glad to send transcripts or references on request. Thank you for your time.

Sincerely,
Brian
