City and County of San Francisco
San Francisco, CA

Hiring Manager,

I am writing to ask to be considered for Laboratory Technician I openings at City & County of San Francisco. I hold a B.S. in Chemistry from UC Santa Cruz (2011), with bench experience in wet chemistry and sample handling from roles at Threshold Pharmaceuticals, MicroConstants and Quintara Biosciences.

The work you describe for this team is steady bench throughput and careful documentation. That is close to work I have actually done: making up buffers and reagents, titration and pH work at the bench, extracting, aliquoting, labeling and tracking samples so the chain of records stays intact and keeping instruments calibrated and sorting out the simple faults before they cost a run. I am comfortable being the person who keeps a bench tidy, a record complete and a schedule kept. The last decade of running property operations on contract sharpened exactly that: inventory, vendor scheduling, compliance paperwork and receipts that reconcile.

If a matching requisition opens, I would welcome a short conversation. I can be reached at (707) 596-8503 or Brian.j1274@gmail.com, and I am glad to send transcripts or references on request. Thank you for your time.

Sincerely,
Brian
